

COVID-19 and Traffic Light System

Many of you would have heard this week of the government's new traffic light system for managing COVID-19. Contained in that framework is the need for vaccine certificates to be used for attending various events including church. While we don't have all the answers yet, we want to let you know that as a leadership team we are working hard to make a plan for moving us forward. **We want to also assure you that when we are back in the building we will have church service options for everyone.** We have a way to go, but we want to navigate this journey together with wisdom, grace and unity. We appreciate your prayers as we walk this road together.

I'm speaking to many leaders and pastors every week who are, like us, attempting to understand the way forward. One of my concerns right now is the division that's stirring. We can't allow the current issues to create disunity amongst us. We won't all agree on every issue, approach or decision, and that's ok. We must navigate this with humility and respect for one another, holding to and fighting for what unifies us. Jesus is the answer.
